

Point of Sale Solutions

Company Overview

Innovative, Customizable POS Systems

Postec is a leading solutions provider with over 32 years in business. We provide our expertise to the restaurant, hospitality, and grocery retail industries, offering full-service and turn-key point of sale solutions that match the needs and budgets of our individual customers. As an industry leader in the Southeast United States, Postec is focused on delivering the utmost level of reliable customer service that starts with building a strong relationship.

Through our high-level individualized service, and our partnerships with the most reliable and trusted vendors in point of sale technology, Postec offers solutions for the most common and complex challenges faced by managers in the restaurant and grocery spaces.

Whether you are upgrading your current system or adding new technology, partnering with us can give you access to tools that effectively improve the customer experience, generate better communication and efficiency, and increase revenue.

LEARN MORE

Industries We Serve

At Postec, we have three decades of experience solving the unique challenges of a variety of industries.

Restaurant

Postec offers restaurant point of sale solutions that streamline operations and increase efficiency, providing better overall customer experiences. Designed with restaurateurs in mind, our solutions offer advanced features and functionality for a complete POS solution. Whether you operate a table service restaurant, QSR, or multi-location fast casual chain, our solutions are easy to learn and easy to use anywhere, anytime.

Sports and Entertainment

Postec provides point of sale solutions for sports and entertainment venues—from bowling alleys and amusement parks to stadiums and arenas—that keep operations running smoothly so as not to interrupt the fun. We offer a POS with robust enterprise functionality and features unique to the specific needs of entertainment venues, as well as reliable hardware that will last until the final buzzer.

Hotel, Resort, and Lodging

In the hospitality industry, guest service and experience are top priorities. Postec offers solutions that combine your business management into one tool, with wide integration capabilities, advanced technology, robust reporting, and reliable hardware to make the most complex operations run without a hitch. Improve the customer experience at hotels, resorts, and even cruise ships.

Market and Grocery Retail

Grocery stores and supermarkets require well-integrated solutions to handle all the daily operations of managing a small independent grocer or large multi-location chain. Postec provides POS technology and support services that will maximize the revenue of your grocery store and improve the checkout experiences for both employees and customers with one complete system.

Restaurant Point of Sale Solutions

Solutions to meet your needs

Postec partners with top names in POS technology for restaurants, with solutions that can be integrated across numerous types of hardware:

- Legacy POS
- Mobile POS
- Tablet POS

- Manage manufacturer digital/electronic coupons, customer loyalty and rewards

The Postec Difference

A partnership with Postec is beyond just the sale—it is also 30 years of industry experience and ongoing support for the success of your business.

Analytics and Reporting

Having access to your business data is crucial for making important and strategic decisions to improve your bottom line. Your POS system should include the features that make analytics and reporting easy to access and understand for total control over your business. Solutions from Postec include:

- Real-time visibility
- Cloud-based technology to access data anywhere, anytime
- Customizable documents and smart reporting—access what you need when you need it
- Tracking for inventory, labor management, and point of sale all in one place

Services

Postec provides award-winning, comprehensive service and support. We have you covered with local, professional on-site service throughout the lifetime of your system. We are available 24/7/365 through phone, chat, or email. Let Postec assist you in managing and monitoring your systems. We can handle everything from your backup strategy to PCI compliance and metrics analysis easily through a secure internet connection.

We'll show you solutions that match your needs and budget, whether you are a new restaurant, a large restaurant group, a hotel or an independent grocer. We've worked hard to be the Southeast's POS industry leader for over 30 years.
